**Santa Cruz Guitar Company  
Custom Tony Rice Signature Model Guitar**

The Santa Cruz Guitar Company has very generously donated this beautiful guitar. The Santa Cruz Guitar Company Custom Tony Rice Signature Model represents over 30 years of collaboration between the world's foremost flatpicking icon and SCGC's founding luthier, Richard Hoover. This guitar delivers exactly what the contemporary flatpicking artist needs: substantial treble and midrange for rapid single-line lead, clean note separation for definition and the traditional bass boom without the woofy bottom end of some of the venerable Pre-war dreadnoughts. This custom configuration has Indian Rosewood back and sides, an Adirondack top and Adirondack bracing with hot hide glue Vintage tinted top. Truly a magnificent instrument!

**Taylor Guitar Company  
AD17 Grand Pacific Model Guitar**

Taylor Guitars has very generously donated this beautiful guitar. It features back and sides of solid ovangkol, an African tonewood that shares rosewood's warmth and brilliance with additional presence in the midrange. Topped with solid spruce, the AD17 serves up a blend of sparkle and clean low-end power, enhanced by V-Class bracing for greater volume, longer sustain, and a more in-tune sound. That seasoned, vintage-hued tone is reflected in this model's strikingly classic look, with a natural top and a deep Urban Sienna color treatment for the ovangkol back and sides. The 2.0 mil-thick matte body finish minimizes damping for unfettered resonance. It ships in a Taylor AeroCase.
